Comoso Armchair

a compact, modular, social chair, with arms

If the Comoso Lounge chair is all about its sexy compact form, then the Comoso Armchair is all about comfort.

At some point during the design process, Harry sat in a classic Papa Bear Chair and realized how comfortable arms are on a chair. He vowed to bring this sensibility to the Comoso design. Harry worked with a local upholsterer to perfect the form.

Comoso is made to order and can be ordered in a wide variety of fabrics. We highly recommend Kvadrat's [Tonus 4](#) and [Tonica 2](#) ranges of woven wool fabrics. Other fabrics need to be tested for use.

Comoso Lounge

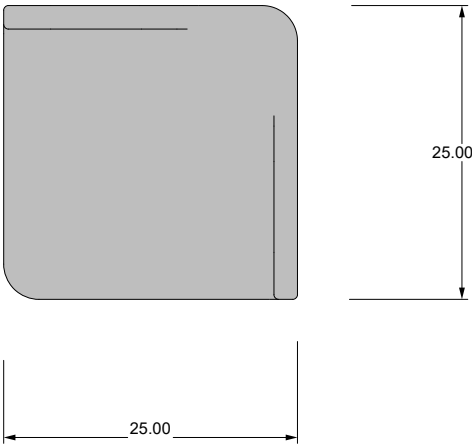

Comoso holds its sitter in an alert, yet relaxed position. A perfect position for socializing. Its square plan gives the chair modularity. It's tall back offers privacy. Therefore it combines in interesting ways. One can create intimate love seats, conversation areas, or use one on its own.
