**Program Rug**

Our Program Rug is a timeless grid. It's bold graphics are at home anywhere. However, it was developed in direct response to our Comoso lounge.

Harry has always been fascinated by systems, and once he had the Comoso Lounge developed with its perfectly square form, the rug followed naturally. It echos the chair's 25"x25" square form, giving it a forum much like a chessboard gives the chess pieces a playing field.

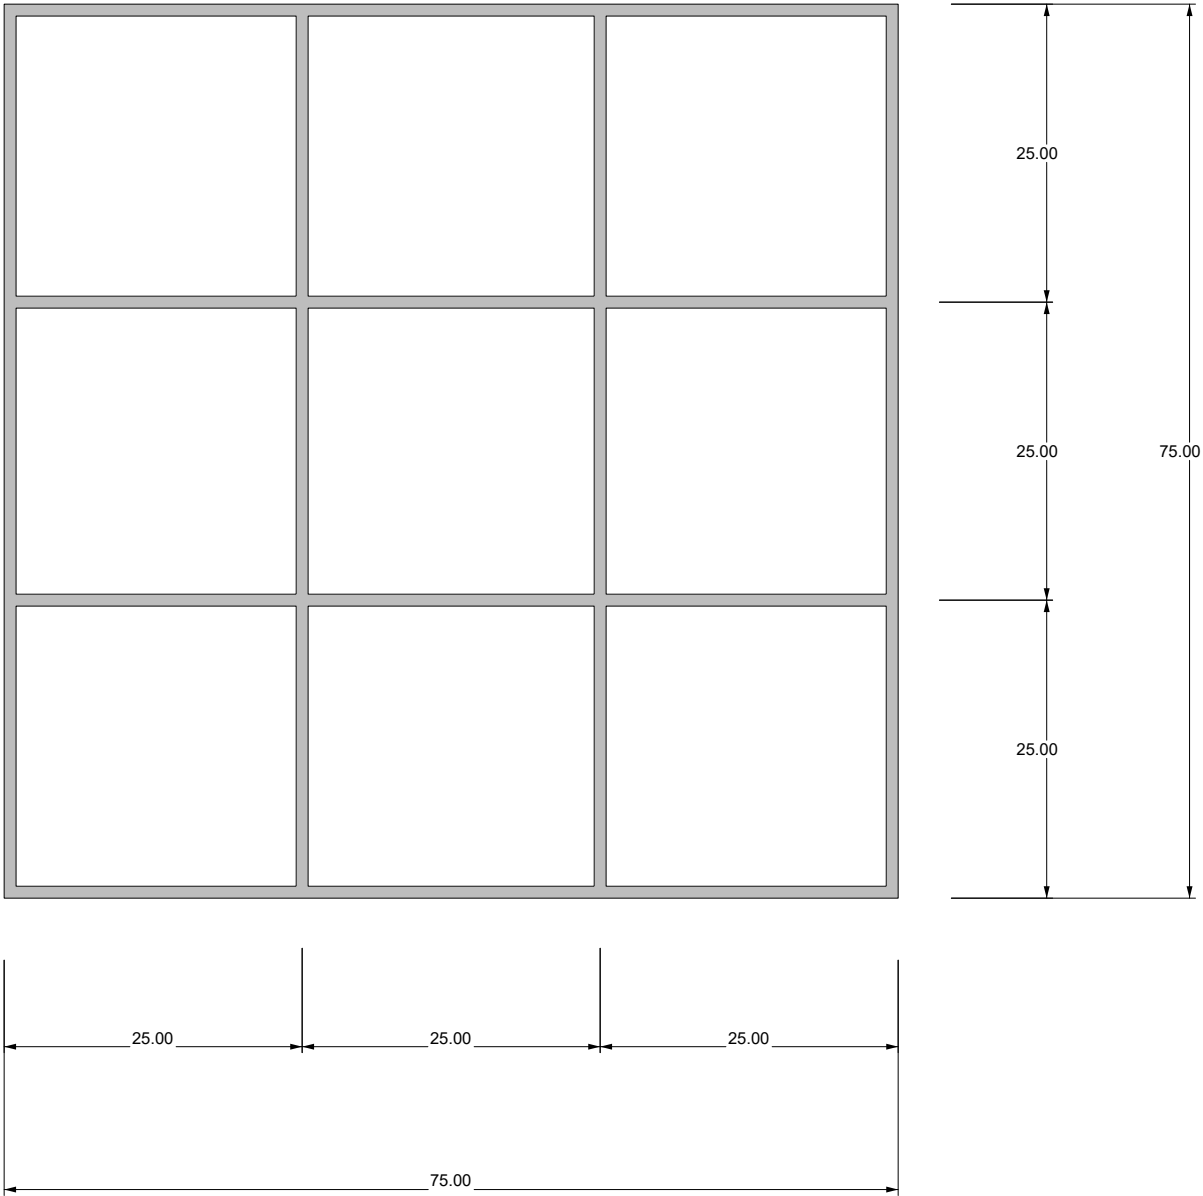

We named it Program because we believe it can give structure and form to a room much the way a design program does.

Because Comoso is so compact, four will fit (intimately) on a 9 panel (75" x 75") Program rug. But Program is completely customizable, just let us know what size you want. All we ask is that the size be divisible by 25".

\$1780, plus tax and shipping, as of May 2025, please reach out for exact pricing
